

Rohit Patil

Data Analyst

rohit.patil@example.com | +91 98765 10003

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with strong knowledge of SQL, Python, data cleaning, exploratory data analysis, dashboards, and business reporting. Experienced in transforming raw datasets into meaningful insights using Pandas, Excel, Power BI, and visualization libraries. Comfortable communicating analytical findings and identifying trends that support data-driven decisions.

TECHNICAL SKILLS

Python, SQL, MySQL, PostgreSQL, Pandas, NumPy, Excel, Power BI, Tableau, Matplotlib, Data Cleaning, EDA, Statistics, Data Visualization, KPI Reporting

PROFESSIONAL EXPERIENCE

Data Analytics Intern | InsightWorks Analytics | Jan 2026 - Jun 2026

Cleaned and analyzed structured business datasets using SQL and Python. Created automated reports and Power BI dashboards for sales and customer metrics. Performed exploratory analysis to identify trends, missing values, outliers, and performance patterns. Worked with stakeholders to define KPIs and present findings in an understandable format.

PROJECTS

Sales Performance Dashboard

Created an interactive Power BI dashboard to track revenue, product performance, regional sales, and monthly trends. Used calculated measures and filters to support management reporting.

Customer Behavior Analysis

Performed exploratory data analysis using Python, Pandas, and SQL. Identified customer segments and purchasing patterns and presented recommendations based on the findings.

HR Analytics Report

Analyzed employee data to study attrition, department trends, and performance indicators. Created visual reports and summarized important business insights.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering | Expected Graduation: 2027

CERTIFICATIONS

Data Analytics with Python, SQL for Data Analysis, Power BI Fundamentals
